This letter is your notification that your appeal has been resolved and your official decision(s) regarding the appealed funding request decision(s) that featured your company's Service Provider Identification Number (SPIN).

The Funding Commitment Report (report) that follows this Revised FCDL contains a list of items that were included in your original FCDL. An explanation of the items in the attached report is included in the sample applicant FCDL posted to the SLD section of the USAC web site, and was included in your original FCDL. The report attached to this letter may have been updated. Use this updated information when completing FCC Form 474 or certifying FCC Forms 472. Your customer(s) should use this information when completing and certifying FCC Forms 486 and 472.

This same information is being sent to your customer(s). We urge you to contact your customer(s) to make any necessary arrangements regarding delivery of service and provision of discounts.

IMPLEMENTATION TIMEFRAME:

On June 29, 2001, the Federal Communications Commission (FCC) released an Order extending the implementation period for non-recurring services. Any non-recurring service for which funds are committed in this letter may be delivered and installed up to September 30, 2009, not including extensions. Support for recurring services, however, is available only for services provided during the period of July 01, 2002 through June 30, 2003.

If Forms 486 have not already been submitted for these services provided by this service provider as identified by the SPIN in the attached Funding Report, Forms 486, must be received or postmarked no later than 120 days after the Service Start Date or 120 days after the date of an FCDL that approves funding, whichever is later to receive discounts retroactively to the Service Start Date. If any funding was approved in the original FCDL and any services were provided by the service provider whose SPIN was referenced in the original Funding Report, the deadlines described above are calculated based on the original FCDL. If these services are approved as a result of a SPIN Correction, a new Form 486 will be required to allow invoicing for such services. Invoices for these services must be received or postmarked within 120 days of the date of the Form 486 Notification Letter or within 120 days of the last date to receive service, whichever is later. Work closely with your customers to ensure that Forms 486 and invoice forms are completed in a timely manner.

NEXT STEPS

File your FCC Form 473, Service Provider Annual Certification Form, for this funding year, if you have not already done so, to complete the procedure for submitting invoice forms. Form 473 must be completed each funding year by each service provider, for each separate SPIN, to confirm that the invoice forms submitted by each service provider are in compliance with the FCC's rules governing

the Schools and Libraries Universal Service Support Mechanism.

USAC needs to have current, complete and accurate contact and address information in order to properly make payments to service providers. The FCC Form 498, Service Provider Information Form, is the official form to use to submit or update this information. Please ensure that the information on our web site is accurate, and file the Form 498 if an update is needed.

NON-RECURRING SERVICES: Contract Expiration Date(s) featured on the FCC Form 471 may have passed. The attached report includes the Contract Expiration Dates from the Form 471, if provided, for each FRN. FCC rules grant a limited extension for contracts for non-recurring services. "[C]ontracts for nonrecurring services may be voluntarily extended to coincide with the appropriate deadline for the implementation [of delivery and installation for nonrecurring services]. Parties may not, however, extend other contractual provisions beyond the dates established by the Commission's rules without complying with the competitive bidding process." [FCC 01-195, released June 29, 2001] In other words, if an applicant is granted an extension of time for delivery and installation of non-recurring services, the applicant may extend the relevant contract without rebidding. If this is true for your customer, you should first negotiate a contract extension. Your customer must then file an FCC Form 500, Adjustment to Funding Commitment and Modification to Receipt of Service Confirmation Form to notify the SLD of the new Contract Expiration Date. After Form 500 has been submitted by your customer and successfully data entered, they can file the Form 486 with the SLD and you can begin invoicing the SLD for approved services.

NOTICE ON RULES AND FUNDS AVAILABILITY

Applicants' receipt of funding commitments is contingent on their compliance with all statutory, regulatory, and procedural requirements of the Schools and Libraries Universal Service Support Mechanism. Applicants who have received funding commitments continue to be subject to audits and other reviews that USAC and/or the FCC may undertake periodically to assure that funds that have been committed are being used in accordance with all such requirements. The SLD may be required to reduce or cancel funding commitments that were not issued in accordance with such requirements, whether due to action or inaction, including but not limited to that by the SLD, the applicant, or the service provider. The SLD, and other appropriate authorities (including but not limited to USAC and the FCC), may pursue enforcement actions and other means of recourse to collect improperly disbursed funds. The timing of payment of invoices may also be affected by the availability of funds based on the amount of funds collected from contributing telecommunications companies.
